PROFESSIONAL SUMMARY

A technical, data-driven Customer Success and Account Management professional who turns enterprise relationships into measurable outcomes. Over 8+ years experience of deep account management expertise and software development background to effectively bridge the gap between customers and technical teams. Passionate about solving complex business challenges, driving customer adoption, and delivering solutions that create measurable value. Seeking opportunities to leverage a unique blend of customer-facing experience and technical expertise.

PROFESSIONAL EXPERIENCE

Technical Account Manager

02/2026 – 07/2026

Matik (Series A startup) | Greater Seattle Area (Remote)

- Conducted weekly customer-facing product demonstrations and technical workshop sessions to educate stakeholders on AI features, integrations, and platform capabilities
- Owned onboarding and implementation for new customers, delivering deployments within **six-week** implementation timelines and accelerating time to value
- Collaborated with Relationship Managers to identify expansion opportunities and develop customer success milestones that demonstrated value during renewal cycles, contributing to **118% NRR**
- Designed and implemented AI-powered automation workflows and integrations (MCP, APIs, SQL-based dynamic content), saving a 10-person CSM team an estimated **100-150 hours per month** in presentation generation
- Triageed and resolved customer-reported bugs within **24-48 hours** by partnering with Product and Engineering on root-cause fixes, reducing recurrence and improving customer trust

Sr. Customer Success Manager - Enterprise

08/2022 – 02/2026

Emburse | Greater Seattle Area (Remote)

- Managed a **\$15M** enterprise customer portfolio, driving renewals and reducing churn to maintain a corporate target of **92%+** gross revenue retention (GRR)
- Owned the end-to-end customer journey and facilitated escalations with C-suite stakeholders, leading close cross-functional collaboration across sales, product, support, and billing
- Delivered QBRs using Looker dashboards to surface KPI trends and employee spend management risk, driving a **20-30% improvement** in policy-compliant spend
- Served as the Pendo SME, training CSM teams on adoption best practices, contributing to a **25% increase** in CSAT across managed accounts

Client Development Representative

02/2018 – 08/2022

SAP Concur | Bellevue, WA

- Maintained strong relationships with sales and marketing teams by formulating a weekly strategic plan and reviewing and updating each rep's Territory Report
- Exceeded monthly goals, generating a quarterly pipeline of **\$3M** by qualifying leads and communicating the value of new product offerings focused on AP automation, audit, and AI
- Managed one-time setup sales opportunities by gathering client information for implementation, coordinating with technical resources on discovery, and processing contracts

TECHNICAL SKILLS & PROJECTS

Languages: Python, Java, SQL, JavaScript, HTML, CSS

Frameworks & APIs: Node.js, React, REST API, GraphQL

Tools: Salesforce, Zendesk, Jira, Productboard, ChatGPT, Claude, Looker, Pendo, VSC, MySQL

Technical Projects:

- **Full-Stack E-Commerce Application (M.S. Coursework)** – Developed a full-stack shopping application using Node.js, Express, React, GraphQL, Sequelize, and SQL, featuring user authentication, product search and filtering, shopping cart functionality, transactional order processing, inventory management, and administrative product updates
- **GraphQL Course Management Application (M.S. Coursework)** – Built a full-stack GraphQL application using Apollo Server, Apollo Client, React, and Sequelize, developing custom queries to search and retrieve relational course and coordinator data through an interactive web interface
